Dimensions

50mm (w) x 232mm (d) x 267mm (h)

DESCRIPTION

The industrial tap design essence is in the design of the BOLD Collection, the new product designed by Federico Castelli & Antonio Gardoni. Marked with a knurling that makes the grip easy and comfortable, the name reinforces the peculiarity of these taps, inspired by the metropolitan design of the industrial taps, where the salient aspects are robustness, essentiality and functionality.

BOLD is available with two types of taps - the "factory" and the "handwheel" - combined on a collection of products. A project that reinvents a memorable design with a contemporary touch and leaving the mark with a fresh, courageous and unusual idea.

"We are called to be BOLD".
