back of the plate

Recommended  
Working Pressure  
150-500KPa  
Maximum Hot  
Water Temperature  
75 degrees

Note:  
 .If the pressure exceeds or likely to exceed 550kpa, an approved pressure limiting device must be installed.  
 .Flush out all pipe work prior to installation.  
 .If the water temperature exceeds 75 °C, an approved tempering valve must be fitted.  
 .Installation should comply with Australian standard AS3500. Failure to comply with the above may void all warranties.

MAINTENANCE AND CARE:  
 .Products should be cleaned with mild liquid detergent or soap and water  
 .Do not use cream cleaners or citrus based cleaning products, as they are abrasive  
 .Use of unsuitable cleaning agents may damage the surface, any damage caused in this way will not be covered by warranty.
